PROFESSIONAL SUMMARY

Accounting and finance professional with over 4 years of experience in accounting, auditing, financial reporting, and budgeting. Currently serving as Lead Reporting and Budgeting Specialist at AzIntelcom LLC. Background includes external audit at Ernst & Young, business control at AVT Logistics, and senior accounting at blockchain-focused startups. Holds ACCA F3 qualification.

PROFESSIONAL EXPERIENCE

Lead Reporting and Budgeting Specialist | AzIntelcom LLC 2023 – Present

- Collaborated with cross-functional departments to gather data and ensure accuracy and completeness of financial reports.
- Generated monthly CEO reports on accrual basis providing detailed insights into the company's financial performance.
- Prepared quarterly CFO reports including financial analyses, forecasts, and budget variance analysis to support financial planning and strategy development.
- Created quarterly board reports summarizing financial performance and operational highlights for presentation to the board of directors.
- Developed customized reporting templates and dashboards to effectively present financial results.
- Conducted detailed analysis and calculations of cost of revenue components.
- Assisted external auditors in maintaining regulatory compliance by providing necessary data and documentation.
- Performed ad-hoc analyses and special projects as requested by management to support strategic decision-making.

Financial Consultant (Freelance) | Startups 2021 – Present

- Developed financial projections for budgeting and forecasting for various projects, aiding in strategic planning and growth initiatives.
- Provided financial advisory services focused on blockchain technology and decentralized finance (DeFi).

Lead Business Controller | AVT Logistics 2023

- Established budgeting processes and controlling mechanisms across the organization.
- Assessed current accounting operations, offered recommendations for improvement, and implemented new processes.
- Developed and monitored business performance metrics (KPIs).
- Provided management with information vital to the decision-making process.
- Performed investment analysis for management.
- Developed and implemented company costing and pricing models.
- Prepared, analyzed, and visually presented monthly reports to the Group Board.

Senior Accountant | HubioID | SWAPP (Group of Companies) 2022

- Managed crypto-denominated cash flows and token treasury accounting in alignment with IFRS standards.
- Developed forecasting models for token burn and staking rewards, informing product roadmap and liquidity planning.
- Implemented Python/SQL reconciliation scripts to match on-chain wallet activity with ERP ledgers.
- Verified, allocated, posted, and reconciled accounts; maintained and reconciled balance sheet and general ledger accounts.

- Ensured compliance with GAAP principles; supported and mentored junior accounting staff.
- Researched DeFi protocols for investment and financing opportunities including staking, farming, borrowing, and loans.

Assurance Services – Audit Advanced Staff | Ernst & Young LLP (Financial Services Office) 2020 – 2022

- Planned and executed audits of financial statements and internal controls for large public and private companies.
- Evaluated design and operating effectiveness of controls, including IT general and application controls.
- Performed substantive testing across accounts including cash, accounts receivable, and accounts payable.
- Organized and filed audit working papers and supplementary documentation; ensured performance measures were established and met.
- Assisted with client acceptance procedures for new and prospective clients; participated in preparation of audit proposals.
